Why Empathy?

Empathy is the ability...

...to open one's heart to better understand the emotions, motivations and experiences of another. Without empathy, we could not make the deepest connection that lets us love through understanding.

Empathy is like a window...

...into the heart and mind of another person, helping us to better understand their ideas, feelings and responses. We all long for an empathic relationship with a loved one, but in today's fast-paced world it is so much easier to take a shortcut and respond to emotions of the moment.

Raising the level of love...

...and understanding in your relationship does not necessarily mean changing your opinions or values. The *Empathy-Index* provides a patented way of measuring both your and your partner's level of empathy for each other.

There is no judgment...

...nor is there any "right" or "wrong" answer. Because conflict in a relationship is often based on either a lack of understanding or misunderstanding, the *Empathy-Index* provides a relationship tool to help understand why you both feel the way you do. The *Empathy-Index* helps you to identify, measure and understand the issues that every relationship faces while improving the listening skills and the emotional intelligence of both you and your partner.

Empathy vs. Compatibility

There are many "compatibility" tests available, and they are certainly very helpful in determining whether two people share similar backgrounds, interests and goals. The next step is to strengthen the foundation for a longterm, fulfilling, relationship, and that requires a deeper, intuitive, understanding called empathy.

Everyone wants to feel understood and accepted by a partner, but sometimes we lack the empathic skills necessary to identify and communicate those feelings. In a fun, non-threatening way *Empathy-Index* identifies your areas of strength, as well as any hidden warning signs.

Would you lik to build an empathic r lationship?

Do you want to strengthen the foundation of your lifetime partnership?
Don't you owe it to yourself... and your partner?

Find out how it works.
